

Angel Fund

We've all known angels.
Those animal companions that speak to our heart.
That listen to our fears.
That make us smile.
That console our tears.
Angels come in all shapes and sizes and colors.
All breeds.
Angels are our best friends.
They are the ones who stay in our hearts forever.

This fund was created to pay tribute to the angels in our lives.

*The purpose of the fund is to help Home at Last continue to rescue **adult animals** in shelters and provide care for them until they find a family of their own.*

It was inspired by my experience with my own angel.

I saw her photo online and it was love at first sight.

I went to visit Home at Last, and amazingly enough--she was the very first dog that greeted me there.

We connected immediately.

My angel taught me about compassion. I have never known a creature SO compassionate. People couldn't meet her without loving her--which is why it amazed me that she was looking for a home...amazed me that she had been on deathrow at a local shelter scheduled to die. I was so thankful that Home at Last had saved my girl--that they had given her a second chance so that we could find each other--that I became involved in the organization too. I felt the need to give back to the group that had made it possible and I wanted to help other animals and people find one another and make that love connection.

My angel was funny and silly and sweet.

She was pure love, full of grace and beauty.

She was my best friend and constant companion.

As special as my angel was to me--I know my experience is not unique.

We all have angels that touch our hearts and change our lives.

Please consider making a contribution in honor of your angel.

Your donation will help your angel's spirit live on and continue to change lives and make goodness happen.

Your donation will help other animals become the angel their family is waiting for.

There are lots of angels out there.

Beautiful spirits, just waiting to share their lives, and in turn changing the lives of all who know them.

Thank you,

Sarah Dorroh, President
Home at Last animal sanctuary
